**Bull Roast Flyer**

### Executive Director's Message

**E**nclosed with this Newsletter is the flyer for the 2008 Rotary Club of Catonsville-Sunrise Annual Bull & Oyster Roast and Silent Auction, to be held on Saturday, February 23, 2008. The event begins at 1 P.M. and ends at 5 P.M. The proceeds of the Bull & Oyster Roast and Silent Auction go to Catonsville Emergency Assistance Network. Last year over 540 tickets were sold to what is recognized as The Best Bull Roast in Baltimore. This year

they are expecting over 700 at the Martin's West facility. There will be 90 wonderful Silent Auction items, 3 separate drawings for the Basket of Cheer, Tower of Beer and Wine Rack Raffle. We ask for your support. Come and enjoy the fine food and take some extra chances on the Door Prize, a flat screen HD-LCD TV and Home Theatre System. Bring your family and friends and treat yourselves to a memorable Saturday afternoon experience.

With the cold weather upon us, and rising utility bills the needs of our clients are increasing. Enclosed with this newsletter is a return envelope for your use. Thank you for your continued financial support.

John Monck

## Renovation Project

### Our Needs

- \*Spaghetti Sauce
- \*Jelly
- \*Rice a Roni / Noodles
- \*Juice
- \*Spam
- \*Potatoes
- \*Canned Salmon
- \*Toilet Paper
- \*Pork and Beans
- \*Rice
- \*Sugar
- \*Tea Bags
- \*Canned Vegetables
- \*Soups
- \*Peanut Butter
- \* Ravioli, Spaghetios

### Holiday Help

We distributed over 150 holiday packages and gifts for 106 children. Each child received 2 gifts, along with stocking stuffers, a hat, mittens and scarves.

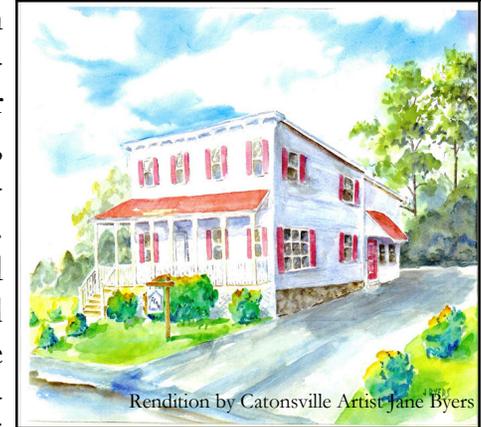

### Volunteers Needed

We are always in need of Volunteer help for everyday tasks, including: Packing Bags, Weighing, Sorting and Stacking Food Donations and some office tasks. If you would like to Volunteer, please call our office: 410-747-HELP

Our property located at 25 Bloomsbury Avenue does not have enough floor space to efficiently carry out our mission. In addition, the interior configuration is inefficient. Part of our capital campaign is to fund the renovation of the current building. Because of the age of

the existing building, the easiest way to accomplish this renovation is to completely remove the interior of the building and bring the entire building up to the Baltimore County Building code. This will entail completely re-wiring the building, insulating the building, and replacing the inefficient windows. We anticipate that we will replace the aluminum siding with vinyl siding. We plan to replicate, as closely as possible, the exterior treatment of the building next door, 23 Bloomsbury Ave. Upon successful completion, we hope to achieve design continuity between the two buildings.

The cost of renovation, as opposed to new construction, is high. The additional cost is the result of the burden of removing the interior and windows. Most likely, it will also entail the replacement of the existing HVAC system.
